

FAIR CONTRACT NOW AT ASARCO!

Asarco/Grupo Mexico Management,

Your failure to bargain a fair contract for union workers impacts us all. We depend on good union jobs for the health and economic security of our families and communities. We're calling on you to agree to a fair contract that includes good wages, benefits and retirement security for those who work hard every day to make your company profitable.

Grupo Mexico has a long history of abusing workers and harming communities across Mexico and South America. We won't stand for this harmful and reckless behavior here, or anywhere.

It's time to quit delaying and bargain a fair contract in good faith.

Sincerely,
